Potential New Foundations Charter School High School Attendee

New Foundation Charter School's philosophy is one that embraces a caring community.

In order to continue and expand this vision, our high school will focus upon academic programs centered upon careers dedicated to civic and social responsibility and service.

Student applicants will be asked to complete the following multi-disciplinary assignment. The goal of this task is to evaluate and assess a student's dedication and passion toward their chosen profession, but also identify written, oral communication, and technology skills.

This intake assignment will incorporate historical, mathematical and scientific connections to one's chosen career pathway. Thus, simultaneously enabling students to express why they selected a particular career which then influences goals and their future contributions to society.

High School Applicants Multi-Media Presentation Requirements

In your presentation, please clearly express your thoughts using the following outline as a guide. All areas must be covered thoroughly and in a unique fashion. The multi-media presentation should be at maximum 15 minutes. Please be prepared to answer questions orally as well as in written manner. The preferred media presentation format is a Power Point presentation with various slides answering and/or explaining the below noted information. Please save your final presentation model on a flash drive and/or a CD-ROM.

Career Path

- Choose your specific career path
- Give reason and detail to why you have chosen this career.
- How will your career choice contribute to society and the community,

Assisting Community and Society

- How will your career serve the community and/or society? How has the career assisted society in the past?
- How will you and society benefit from the service you will provide when opting to pursue this career?

Research Career Path

- Research local universities, colleges, and technical schools, in depth, that will support furthering your education with your career choice. (i.e. cost, courses, prerequisites, etc).
- What additional training, if necessary, is offered for your career of choice?
- Gain evidence of statistical information pertaining to the relevance, need and/or demand of your career choice.
- Explain the academic connections of fundamental core subjects (i.e. Math, Science, Social Studies, Science, and Technology) with relevance to your chosen career path.
